

Program of the RAP9 session (November 28, 2012)

14:00-14:20 Tsuyoshi Tanaka (Natl. Inst. Agrobiol. Sci., Japan)

The 9th Rice Annotation Project Meeting

14:20-14:40 Saurabh Raghuvanshi (Univ. of Delhi South Campus, India)

Integrated approach to understand rice as a 'Molecular System'

14:40-15:00 Jun-ichi Yonemaru (Natl. Inst. Agrobiol. Sci., Japan)

A database for rice functional genes identified by molecular studies and its applications for rice genomics and breeding

15:00-15:20 Coffee Break

15:20-15:40 Fu-Jin Wei (Department of Agronomy, NTU, Taiwan)

Genome-wide DNA polymorphisms among modern japonica and indica varieties revealed by NGS

15:40-16:00 Kenneth McNally (IRRI, Philippines)

Thousands of rice genomes and phenotypes: challenges and opportunities

16:00-16:30 Panel Discussion
